ISBN 0-9769737-1-5
Retail: \$12.95

ABOUT THE BOOK

Worms Like to Wiggle targets children age birth-8 years. It contains many elements that encourage the development of early language, literacy, math, history, and social science skills. *Worms Like to Wiggle* corresponds directly to the Virginia Foundation Blocks for Early Learning: Comprehensive Standards for Four-Year-Olds, the Head Start Child Outcomes Framework, and Kindergarten Standards of Learning. Not only do the words in this book encourage the development of a child's noun vocabulary but their verb vocabulary as well. Through the intentional use of the numbers 1-5, math concepts including one to one correspondence can be explored. *Worms Like to Wiggle* is also a springboard for science concepts such as matter and life processes. Lesson plans are available at www.wormsliketowiggle.com.

In *Worms Like to Wiggle*, kids will enjoy their imaginary ride down to the farm where they can wiggle along with their favorite animals in this beginning reader!

ABOUT THE AUTHOR

Betsy Peters graduated from College of Charleston, where she earned a Bachelor of Science in Special Education with endorsements in emotional disturbance and learning disabilities. She is currently pursuing her Masters in Early Childhood Special Education and certificate in Autism at Virginia Commonwealth University. Betsy teaches at J.G. Hening Elementary School in Chesterfield, Virginia.
